Phil Desatoff,
General Manager
Consolidated Irrigation District
2255 Chandler Street
Selma, CA 93662

Phil Desatoff,

On behalf of the City of Parlier I would like to offer our support for the Consolidated Irrigation District's South Highland water recharge/banking facility. We are joining all cities in our region that support enhancing water supplies and planning for future water needs for our city and farming communities.

We further offer our encouragement for all such projects that augment and enrich local water supplies and therefore support the Prop 84 Implementation funding as recommended.

Thank you for your involvement in these projects and please contact me for any further information or assistance needed.

Respectfully,

Lou Martinez,
City Manager
